

Spenny Piggy – Launch Priority & Action Plan (WITH DOCUMENT REFERENCES)

TIER 1 – LAUNCH CRITICAL (Must be completed)

Developers MUST prioritise these documents and features first:

- Payout Risk System → (spenny_piggy_payout_risk_system_v3.pdf)
- Payments & Reserve Logic → (spenny_piggy_payments_reserve_spec.pdf)
- Friday Payout Workflow → (Friday_Payout_Workflow_Guide_Detailed.pdf)
- Finance Dashboard + Ledger → (spenny_piggy_finance_dashboard_founders_bonus_spec.pdf)
- Creator Financial Dashboard → (spenny_piggy_creator_financial_dashboard_and_payouts_dev_spec.pdf)
- Risk Engine Full System → (Spenny Piggy Risk, Payments & Admin Controls)
- Dispute Prevention Framework → (Spenny_Piggy_Dispute_Chargeback_Prevention_Framework.pdf)

Core Actions:

- Manual payouts working with reserves
- Friday payout flow fully operational
- Admin finance dashboard COMPLETE
- Stripe webhooks working perfectly
- Risk system tested (throttling, hopping, step-up, cooldown)
- Duplicate payments bug fixed
- 10% reserve for new creators implemented
- Stripe audit data visible in admin
- Guest receipt emails working

TIER 2 – HIGH PRIORITY

Work on these AFTER Tier 1 is stable:

- Analytics Tracking → (spenny_piggy_analytics_tracking.pdf)
- Audit Logs & Stripe Compliance → (spenny_piggy_audit_logs_stripe_compliance_spec.pdf)
- Dispute Evidence Pack → (spenny_piggy_creator_dispute_pack_admin_spec.pdf)
